Eng. II & IV Journal Entry Guidelines

1. Date & Label/Title your entry and each section.
2. Copy the entry in its entirety.
3. Correct the grammatical errors, spelling, punctuation, etc. Keep your journal until we discuss it as a class. Make any other corrections as necessary.
4. Write down the vocabulary term from the sentence with its part of speech and definition. Then, correctly use the terms in a sentence. OR Answer the journal prompt, writing for the ENTIRE time given.
5. Reflect - write 2 sentences about what your writing made you think.
6. Keep your journal and write your EXIT TICKET in it (and for other needs throughout the class).
7. Return your journal to the proper storage place.
8. Write your next entry under your previous entry. Use as little paper as you can - you'll be using this journal all year, and will fill the ENTIRE notebook.
